Education

Vellore Institute of Technology (VIT) <i>Master of Technology, Computer Science Engineering (Artificial Intelligence and Data Science)</i>	Expected May 2027 7.65
Motilal Nehru National Institute of Technology (NIT Allahabad) <i>Bachelor of Technology, Information Technology</i>	2024 7.16
Indian School Muscat <i>Class XII, CBSE Board, Science</i>	2020 92.8%
Indian School Muscat <i>Class X, CBSE Board</i>	2018 88.2%

Technical Skills

Programming: Python, C++, JavaScript
Backend Development: REST APIs, Node.js, Express.js, Basic Flask/Django
Data & ML: Pandas, NumPy, Scikit-learn, Data Preprocessing, EDA
Databases: MySQL, MongoDB (SQL & NoSQL)
Tools: Git, Jupyter Notebook, Excel
Concepts: Data Structures Algorithms, OOP, Debugging, Modular Code Design, Data Processing
Familiar With: ETL Pipelines, CI/CD (GitHub Actions), Docker (basic), Kubernetes (conceptual)

Projects

Loan Approval Expert System <i>Python, Tableau, Jupyter Notebook</i>	Github
- Developed a data-driven backend system for loan eligibility prediction using Python. - Implemented data preprocessing, feature engineering, and model training workflows using Pandas & NumPy. - Built classification models using Scikit-learn and evaluated performance metrics. - Structured code into modular and reusable components for maintainability. - Simulated an end-to-end data processing pipeline from raw data to prediction output.	
Vidz.io <i>Javascript, React, Bootstrap, ExpressJS, NodeJS, MongoDB, Redux</i>	Github
- Developed a full-stack video streaming platform using React and Node.js. - Designed RESTful APIs for handling video data and user interactions. - Integrated MongoDB for scalable storage and efficient data retrieval. - Implemented state management using Redux and optimized UI performance. - Debugged cross-stack issues to improve application reliability.	
Campion <i>Javascript, Bootstrap, ExpressJS, NodeJS, MongoDB</i>	Github
- Developed a route planning web application with backend services for data handling. - Designed APIs for data communication and integrated geospatial visualization using Mapbox. - Applied modular architecture for scalable and maintainable code.	

Experience

Galfar Engineering And Contracting (SAOG) <i>Internship - Trainee</i>	May 2022 – June 2022 Muscat, Oman
- Optimized SQL queries, improving database performance by 10%. - Enhanced web application responsiveness by 12% through frontend and backend improvements. - Worked with ERP system for data handling, processing and debugging. - Collaborated with cross-functional teams to resolve system and infrastructure issues.	

Certified Courses

Advanced Artificial Intelligence and Machine Learning Applications <i>NIT, Warangal</i>	Certification
Completed 12+ hrs training on real-world applications using AI and ML.	
4.0 Tech Online Bootcamp <i>NxtWave</i>	Certification
Completed 4+ hrs training on AI, ML and Data Science.	
UI Full Stack Web Development with React <i>NareshtIT, July 2024</i>	Certification
Completed 170+ hrs training on UI Full Stack Web Development with React.
