Education

Vellore Institute of Technology (VIT) <i>Master of Technology, Artificial Intelligence and Data Science</i>	Expected May 2027 7.56
Motilal Nehru National Institute of Technology (NIT Allahabad) <i>Bachelor of Technology, Information Technology</i>	2024 7.16
Indian School Muscat <i>Class XII, CBSE Board, Science</i>	2020 92.8%
Indian School Muscat <i>Class X, CBSE Board</i>	2018 88.2%

Technical Skills

Programming: Python, C++, JavaScript
Machine Learning & Data: Pandas, NumPy, Scikit-learn, Data Preprocessing, EDA, Predictive Modeling
Data Visualization: Tableau
Databases: MySQL, MongoDB (SQL & NoSQL)
Tools: Git, Jupyter Notebook, Excel
Concepts: Machine Learning, Data Analytics, Software Development, OOP, Debugging
Relevant Coursework: Data Analysis and Visualization, Optimization Techniques in Machine Learning, Python in Data Science, Scalable Systems for Data Science, Data Science and Machine Learning

Data and Software Projects

Loan Approval Expert System <i>Python, Tableau, Jupyter Notebook</i>	<i>Github</i>
- Developed a machine learning classification model to predict loan approval using structured financial datasets. - Performed data preprocessing, feature engineering, and exploratory data analysis (EDA) using Pandas & NumPy. - Built and evaluated models using Scikit-learn, improving prediction accuracy and generating insights - Implemented end-to-end ML workflow including data preparation, training, and evaluation.	
Vidz.io <i>Javascript, React, Bootstrap, ExpressJS, NodeJS, MongoDB, Redux</i>	<i>Github</i>
- Developed a full-stack video streaming platform using React and Node.js. - Designed REST APIs and integrated MongoDB NoSQL database for scalable data storage - Implemented search functionality to help users find videos easily. - Applied modular software design and debugging techniques for improved performance	
Campion <i>Javascript, Bootstrap, ExpressJS, NodeJS, MongoDB</i>	<i>Github</i>
- Built a web-based route planning application using Node.js and MongoDB - Implemented state management and modular UI components. - Integrated Mapbox API for providing pinpoint location on a 2D-map. - Designed backend services for data handling and API communication.	

Experience

Galfar Engineering And Contracting (SAOG) <i>Internship - Trainee</i>	May 2022 – June 2022 <i>Muscat, Oman</i>
- Improved web application performance by 15% through front-end optimization and database query enhancements. - Assisted in SQL database optimization, improving query efficiency and system performance by 20%. - Worked with ERP system for data handling and system debugging. - Collaborated with IT teams to troubleshoot networking and system configuration issues across enterprise systems.	

Certified Courses

Advanced Artificial Intelligence and Machine Learning Applications <i>NIT, Warangal</i>	<i>Certification</i>
Completed 12+ hrs training on real-world applications using AI and ML.	
4.0 Tech Online Bootcamp <i>NxtWave</i>	<i>Certification</i>
Completed 4+ hrs training on AI, ML and Data Science.
